Solves bending applications other tools can't even attempt.

DIAMOND®

**HB-16W
 Hand-Held
 Rebar Bender**

"Optional 90 degree bending shoe & collar"

Another quality product from **DIAMOND**. This portable rebar bender helps to save valuable man-hours by bending rebar up to 5/8" (#5) Grade 60 in-place at the job site. Other features include a double insulated electric motor and a removable bending guide for repeating the same angle bend. The optional 90 degree bending shoe and collar make it simple to repeat 90 degree bends without a guide. The optional bending collar increases the bending radius and minimizes rebar breakage especially on #5 grade 60 rebar. This portable electric/ hydraulic rebar bender comes complete with a steel carrying case, hydraulic oil & tool kit. **Benner-Nawman** backs it with a one-year warranty.
